Shared Services Plan:

Council has been working with staff to share or extend our services through collaboration with all services that makes sense to reduce operational costs. These include internal department and operational consolidations. Staff has been reduced over 30% since 2006 while still maintaining the same level of service to our citizens.

Efforts to reduce costs by collaborating with other communities have not only saved the taxpayers but in some instances enhanced services to the residents. The joint recreation authority with Eastpointe (RARE) is one example of such enhancements.

The goal and mission of council and staff is to eliminate unnecessary redundancies in service by cooperating with local government or creating private partnerships with vendors that can contribute to decreasing costs and enhancing the quality of life for our residents. To that end, the city council and I are committed to continue in these endeavors.
